140 CEDAR STREET , NEW YORK 6 , N. Y.

Wholesale Pricelist

1951-1952

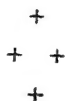

TOWNHALL AT BOSKOOP. Our Nurseries and office are situated behind the Townhall

TERMS OF SALE

The mailing, cabling or personally placing of an order implies an agreement to these terms of sale:

1. Prices are quoted in Canadian dollars to buyers in Canada and in U.S.A. dollars to buyers in U.S.A.
2. Prices are quoted net; 5—24 at 10-rate, 25—499 at 100-rate, 500 and up at 1000-rate, where such a price is quoted.
3. Everything is offered subject to being unsold on receipt of order and sold subject to shortage or failure of crop or other causes beyond control.
4. All goods travel at buyer's risk and expense. The seller is not responsible for losses resulting from delay or damages in transit.
5. Goods are sold fob, seller's nurseries, prices consequently do not include freight, insurance-shipping-and packing charges. All these charges are to be paid on delivery.
6. The buyer authorizes the seller to act in his behalf as his agent in everything pertaining to shipping- and insurance matters, unless otherwise instructed. The certificate of inspection issued by the Holland Phytopathological Service, accompanying each shipment, is accepted by the buyer to release the sellers from all responsibilities regarding the health requirements of the country to where the goods are shipped. Damages accruing from absence of necessary import permits are for account of the buyer. All goods are shipped care of our forwarding agents, unless otherwise instructed.
7. All accounts are due net strictly *two months* after date of invoice. Buyers are entitled to 3% discount when cash accompanies the order. The buyer agrees to pay $\frac{1}{2}\%$ interest a month on overdue accounts. Buyers, unknown to us, who do not furnish satisfactory references must accompany their orders with the amount of the order, less 3% discount.
8. If at the time of shipment the buyer has not yet settled his account of the preceding season, either with the sellers or with any other Holland plant exporter, or if the reports in sellers' opinion are unsatisfactory, the sellers reserve the right to cancel all arrangements without indemnification.
9. The seller gives no warranty expressed or implied for the results of planting or forcing of any plants, bulbs or roots sent out. He guarantees all varieties to be true to name and shall refund an amount not exceeding the original purchase price, upon proper proof of errors of this nature. The buyer allows the sellers to send a substitute nearest to colour and size unless otherwise instructed.
10. If for an order a date of delivery has been contracted, frost and all causes beyond control will be accepted by the buyer as force majeure and delivery will be made as soon as possible.
11. Claims as to the quality of the goods or claims for allowances on account of errors on the part of the sellers, must be made within 8 days after receipt of the goods.
12. In case of cancellation of an order in whole or in part or refusal of the goods as well as in case of import and/or quarantine-regulations prohibiting or delaying the import of the goods into the U.S.A. or Canada or any part thereof, the buyer holds himself responsible for losses resulting therefrom and hereby authorizes the sellers to act as his agent in disposing of the stock. The bill specifying the losses and charges to be paid immediately upon receipt of same.
In case of cancellation of an order not yet executed, the buyer agrees to pay in no case less than 30% of the amount cancelled, without the sellers having to prove their damages. Only when the sellers claim a higher percentage, they will be obliged to prove that their damages are higher.
13. The whole contract is set forth herein. There are no representations, warranties or conditions expressed or implied other than those herein contained nor shall any agreement collateral hereto be binding upon the sellers unless it is in writing signed by the sellers.
14. Alleged unfair dealings by any Holland plant exporter should be reported to Dr. W. F. WERY, The Hague, Holland. Secretary of the Holland Plant Exporters' Association. The seller agrees to make such redress as the secretary will deem proper.

P.E. - Post Entry Quarantine

Articles marked "pe" require post
entry quarantine growing.

150 years ago, one of our ancestors, a Nurseryman at Boskoop, had made for him some strawberry dishes. Strawberry plants was one of the principal articles, although Boskoop was still more famous for Shadetrees and Fruittrees, many of which were exported to France, England and Austria.

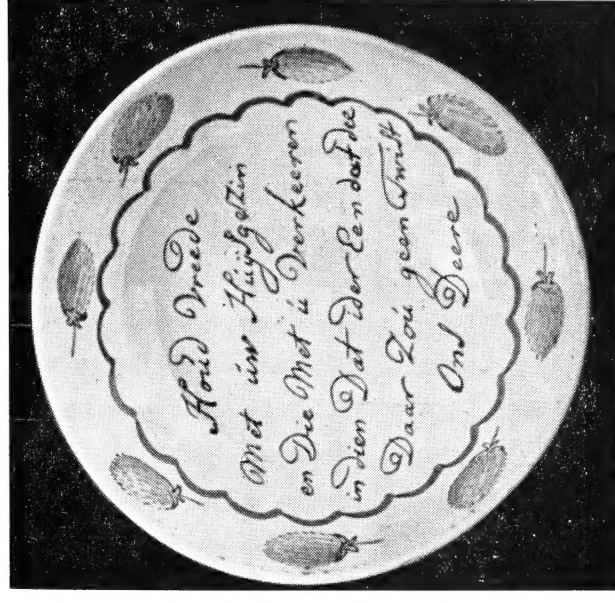

Our ancestor expressed his feelings and thoughts in this quaint fashion. The translation is as much as possible literally, with some slight modification to retain the correct meaning.

These days we grow more than Strawberries. Shade- and Fruittrees, but we are still glad to repeat the other expressions as follows:

I live at Boskoop village
 I grow trees and Strawberries
 I hope for God's Blessings,
 That he will ever lead me
 To fulfill my duty
 And work at working time
 Industiously and cheerfully
 In all happiness

Keep the peace at home
 And with thy neighbors.
 If everyone this did,
 There'd be no quarrels to hurt us.

V V N NOVELTIES

Azalea Vuykiana, PURPLE TRIUMPH

Introduction 1951

With this variety, we bring an entirely new colour in the big flowering Vuykiana assortment, especially for landscape work.

Flowers about 2 inch. across, colour Dianthus Purple Horticultural colour chart (H.C.C.) 730/1.

6—8 inch. price p. 10 \$ 12.—

8—10 „ price p. 10 17.—

Azalea Vuykiana, MRS. VUYK VAN NES

Introduction 1950

This new variety is our best for forcing as well as for landscape work. The colour is light Bengal Red (H.C.C. 25/1) with deep red center.

Large straight-up growing fringed flowers 2¼ inch. across.

Azalea Vuykiana, LITTLE BEAUTY

Introduction 1950

The first of the double Miniature Vuykiana, Kurume type.

Fringed straight-up growing flower, clusters of 3—5, fine rose-red (H.C.C. 24/1)

6—8 inch. price p. 10 \$ 10.—

price p. 100 80.—

8—10 „ price p. 10 14.—

price p. 100 110.—

Astilbe Hybrid, SENTINEL

Introduction 1950

This new variety has a colour such as was non existant in Astilbe. The buds are deep lacquer red (H.C.C. 826 3) the flowers deep rose-red (H.C.C. 24).

Heavy flowers on strong stems, dark green foliage.

Strong Lining-out devisions p. 100 \$ 25.—
